

# The Fleece & Thank You Blanket Kit

A motivating reason for Fleece & Thank You's beginning was when our founder learned that **many kids in the hospital lose their friends** at school and become **disconnected with the world**. The most impactful part of a F&TY blanket is the **media message** (video, picture, or written) that travels with it from its maker through a unique tag on each blanket. We believe not just in giving our warriors a piece of armor in the form of a blanket, but also giving them a **new friend to connect with** through the media message, **empowering the warrior** to stay strong in their battle.

Our blanket kits are \$28 (\$24 when purchased in a quantity of 5 or more) and have three unique features that provide value to our warriors in the hospital.

- 100% of the proceeds of the blanket kit go toward delivering an amazing experience to a child at the beginning of their treatment and covering the cost to deliver these year-round.
- Our blanket kits have our unique video-code patch already pressed on them before the blanket is made by you.
- With hospital partnerships across the state, we deliver your blanket to the next children's unit in MI with warriors that need your comfort.

Our blanket kit is much more than just the fleece; it is an experience for the warrior, paid forward by you and made by your hands. Your purchase of our blanket kits allow us to take blankets from your event directly to a hospital. This allows us to provide quicker response times for hospitals that need blankets quickly and is crucial to our process.

We would love to hear from you at [info@fleeceandthankyou.org](mailto:info@fleeceandthankyou.org) to answer any further questions you have about our kits!
